The "Administration Process."

It is becoming clearer constantly that the gentleman who has mouthed so often and loudly about the "Law," and the duty of every man to respect it, is of all men the least disposed to be governed by the law. In other words, Mr. Joseph W. Folk, when the law blocks his way, charges right over it with his "administrative process." The "administrative process," or government by an armed force on a police or peace basis, is what has reduced 110 million Russians to subjugation and misery, and is the infamous system against which they have now risen.

It is this means Mr. Folk now employs against the "Lid" clubs—clubs which are outgrowth of nothing but his own folly and fanaticism. He cannot close these clubs by law without likewise closing the privileged class, a thing, good sirs, as you may yourselves see, would never, never do. And it is doubtful that he could even close the privileged or any other club at all, for while it has been made illegal to sell liquor on Sunday, the liberties of the citizen have not yet been invaded to the extent of forbidding him to drink on Sunday or any other time. As the courts have decided that a club does not sell liquor, but that it must be considered as an association, dispensing it to the members, each one paying on the ratio to what he consumes, it is hard to see how the Reverend Joseph W. can reach these "Lid" clubs as long as they serve liquor to the members only, or the guests of members.

But hold! There is the "administrative process." The Holy One can apply it wherever he wills. Let any club fall under his displeasure, and he forthwith marches his police against it, ordering them to raid it and keep on raiding it until it is ruined and closed. That is what his police are doing now. Some clubs have been raided as many as three times in one evening, and it is perhaps necessary to say that such clubs were not the St. Louis, home of the Big Cinch, or yet another where a \$1000 poker game has been running for a year or two. A case against none of these raided clubs may ever be made in court, but what difference does that make? The "administrative process" is effective. It will put the clubs out of business long before the cases are reached on the court docket.

It was the "administrative process" that was used out in St. Louis county against the racing syndicate, toward which Folk bears personal and special malice. However guilty the race track gamblers were, however derelict the officials of that county may have been, the offense of Folk was greater than theirs, for he violated fundamental principles dear to the American heart, the principles, for instance, of home rule, and the principle which has named the state the Father of the Republic intended, and their sons now desire, every case of alleged offense against the State shall be adjudicated. It is to extend and enlarge the "administrative process" that is the main motive of changes in the police commission and the rumored dismissal of Chief Kiely. Folk wants to "get" the firm of Celli, Adler and Tilles, because that firm was active against him when he ran for Governor. Investigation by the circuit attorney is said to have revealed the fact that the firm is complying with the law as fully as some of the "wire houses," run by eminent citizens. Hence the law will not reach the firm. But Folk knows something worth two or three laws. It is the "administrative process." I, for one, will be greatly surprised if the "administrative process," in destructive police raids, is not applied to this firm at a near day.

Of course, all this is outrageous, damnable. It is a tyranny peculiarly Russian. It is the method that has held the Romanoff raiders and destroyers on the throne until now. It is the method that has given the vast Russian empire over to superstition and misery, and has held 110 millions of people in ignorance, bare want and bondage. It is a gross violation of fundamental principles of American liberty. The "administrative process" is odious. It is destructive of law and a gross invasion of justice. And yet the man who has applied the "administrative process" in Missouri for the first time in peace, is that man who has mouthed most excitedly and intemperately about law and the sacredness of law!—St. Louis Censor.

Stubborn Coughs.

A cough which lingers on long after every other symptom of a cold has disappeared should have attention, as it indicates some throat or lung trouble and may result seriously. Mr. Alexander McMillan, of Maple Ridge, Mich., recommends Chamberlain's Cough Remedy for this trouble. He says: "I used this remedy for a stubborn cough with the best results and think there is nothing like it. I cannot speak too highly of it." For sale by Arcadia Valley Drug Co.

Letter From Texas.

PENIEL, TEX., Dec. 25, 1905.
Ed. Register.—This is a beautiful Xmas morning in Texas. Just think about it, 1905 years ago Jesus Christ, our Savior, was born. There was no room for Him in the inn, so He was wrapped in swaddling cloth and laid in the manger. Praise His dear name there is room for Him in my heart and life.

While wife and little daughter is in Missouri to-day—called there Friday on account of serious illness—Christ has promised to be with me even to the end. There has been many sad deaths in Iron county since the 28th of last February—I believe that was the day we started for Peniel, Texas. We left Des Arc to stay here on year, as it was a place where the bible teaching was in harmony with our faith in Jesus to save from all sin. I have decided to stay here. It is a very healthy country and a very fertile soil. Cotton is the principal product, though this has been a very bad year. Picking cotton in the South is not what some Northern people would call pleasure. The sun is hot, and this year there were worms three and four inches long all over the fields, but cotton picking went on just the same.

I built a house for a man who had 35 colored men picking his crop, though some men own large acreage and run regular plantations with hundreds of black men. The county roads are kept up around here with the colored prisoners and convicts. I very often preach to the colored boys in the jail at Greenville, Tex. I have regular services in jail Sundays and much good is being done there in Jesus name.

In regard to the school here at Peniel, as so many have written me about it, I will give a few lines and perhaps it will answer several letters. It is strictly an interdenominational school, known as the Texas Holiness University. It has just closed a part of the fifth year, I believe, and students are rapidly graduating and going out in most all parts of the country. It is a clean, pure school and up to the close of this term there have been 1281 souls found God. Peniel is a town of about 500 population, two miles from Greenville, county seat of Hunt county. We are a peculiar people, zealous of good works. School has been going on in a large frame building, but the enrollment has increased so the faculty rented a dwelling to accommodate the present demand. There is a brick building 74x95, two stories high, now under construction. I am foreman on the building.

D. A. White and family and Wm. Kemper and family moved here and seem to be well pleased with the place. I had Mr. White's modern 7-room house just finished when he arrived, and have just completed the fixtures in his store. He is opening up a good stock of goods, and will no doubt meet with success in his new home. The faculty called him to their meeting and welcomed him among the good people of this place as a Christian as well as a business

man. I have just enjoyed a good Xmas dinner with Bro. White and family; also, Ed. Hay of Brunot ate dinner with us. I am boarding with Alex. White while my family are gone.

We have a large Orphans' Home here, with 65 or 70 little orphans. I have sat on our back porch and spent many happy minutes listening to their little voices singing God's praises. May the dear Lord teach us parents and may we as parents accept the bible truths this coming year. God bless the REGISTER and its readers, and may this new year be the best one of our lives.

King of All Cough Medicines.

Mr. E. G. Case, a mail carrier of Canton Center, Conn., who has been in the U. We also find it the best remedy for coughs and colds, giving certain results and leaving no bad after effects. We are never without it in the house." For sale by Arcadia Valley Drug Co.

Why Buy McClure's?

McClure's Magazine is bought and read in homes not because it is a magazine, but because it is THE magazine. Why?

FIRST—THE PRICE. It costs but one dollar a year, or less than ten cents a number, for over thirteen hundred two-column pages of reading matter. This amounts in actual bulk to twenty or twenty-five books costing anywhere from a dollar to two dollars a volume.

SECOND—QUALITY. The reading matter is written by America's leading writers—the best story writers, the best writers on timely articles, the best writers of important serials, such as Schurz's Reminiscences or Baker's Railroad articles.

THIRD—TIMELINESS. The reading matter in McClure's is not only good; it is not only entertaining, amusing, instructive and inspiring—it is also about the subjects in which you and all Americans are most interested at the time. No subjects in the next twelve months are going to be so important as the question of railroad rates and rebates and the question of life insurance. Both of these questions will be discussed by authorities in an impartial, careful, interesting way.

FOURTH—ITS CHARACTER. McClure's Magazine is not edited for children, but at the same time, there is never a line in it that any young girl might not read. Its advertising pages are as clean as its editorial pages.
